MEDIATORS AWAIT WORD FROM HERE

Next Move in Parley Depends on Future Policy of **United States.**

CHANGE IS SOON DUE

Justice Lamar and Mr. Lehmann Report Unsuccessful Conference With Carranza Representatives.

NIAGARA FALLS, Ont., June 17 .- On ord from the Washington government depends the next move in mediation It is believed by stan onicers here that the victorious Guerrero, now that she has festroyed the principal naval strength of the constitutionalists on the west coast, will be able to greatly interfere with heir slege operations against Mazatlan and even as far north as Guaymas.

Identify the next move in mediation. Justice Lamar and Frederick W. Lehmann telegraphed early a 2,000-word report of their unavailing four-hour conference yesterday at Buffalo with Rafael Zubaran and Luis Cabrera, authorfael Zubaran and Luis Cabrera, authorized representatives of Gen. Carranza in

the United States. A general feeling here that the United States possibly may inaugurate a distinct change of policy has been produced by the uncompromising attitude of Messrs. Zubaran and Cabrera, dispatches telling of friction between Gens. Carran za and Villa, reports of a rupture in Sonora between Gov. Maytorena and Gen. Obregon, and news of constitutionalis reverses, both inland and sea. Although mediation thus far has accomplished little, no agreement on personnel for a new government having been reached, the Huerta delegates showed great anxiety today to have the conferences continued. The serious situation

ences continued. The serious situation in northern Mexico also has stimulated the mediators to renewed efforts to have the American government reach some understanding with the Huerta delegates by which at least the international differences could be settled.

Emilio Rabasa, head of the Huerta delegations was that a neutral be proposed for the provisional presidency and that the United States accord recognition to him. Mr. Rabasa declared that a person of capacity and honesty would be chosen, and that as soon as the United States accorded the new president recognition funds and arms could be obtained, so that it would be conceded there are two factions that must be considered.

Think Sympathy May Be Shaken.

Mr. Rabasa cited the recent battle of Zacatecas, saying that if Gen. Natera had the large force accredited to him he would have captured that exposed city. The reverse suffered by the constitution alists there, together with the Carranza Villa situation, encouraged the Huerta delegates in the belief that the sympathy of the United States for the constitutionalists cause may yet be shaken.

The American delegates made no comment on the situation, saying they were waiting to hear from President Wilson and Secretary Bryan, after they had di-gested the long report of yesterday's de-

The indications today were that the conference Friday would develop whether afforts to compose internal differences should be continued. In this event further meetings would be confined to an effort to dispose of the international conflict between the United States and Mexico.

NO DISCRIMINATION INTENDED IN ADDRESS

President Explains Remarks Made at American University Dedication.

One paragraph in the address which was delivered by President Wilson at the dedication of the American University here May 27, confining the attribute of scholarship entirely to the Christian religion, has caused some discussion amon the Jews. Finally this took the form of an inquiry directed to the President by Herman Bernstein of Hollis, N. Y., which elicited a disclaimor from the President of any intent to discriminate against Judaism. The subject is treated in correspondence which was made public to-day by Mr. Bernstein after he had called at the White House and secured permis on to do so.

Mr. Bernstein took exception to the following paragraph in the President's

"That is the reason why scholarship has usually been most fruitful when associated with religion and scholarship has never, so far as I can this moment recall, been associated with any religion except the religion of Jesus Christ."

BUTTE, Mont., June 17.-Metal miners of Butte Local, No. 1, Western Federa-tion of Miners, are to vote today on the question of whether union cards are to be shown at the timekeeper's office at midnight tonight. The conservatives of the union, which include the officers, have announced that because the referendum has not been sanctioned by the union officially the voting will be illegal.

Although both factions held meetings last night the mining camp city was quiet early today. That the situation was tense was vouched for by former United States Senator W. A. Clark. He likened Butte to a well regulated manufacturing plant filled with inflammable material, safe until a lighted match is thrown. In the case of Butte he feared that trouble would ensue if some ill-guarded word was spoken.

Bert Riley, president of the Butte local, who was attacked in the miners' parade last Saturday, and who has not been seen since he left the sheriff's office, where he sought protection, was located at Anaconda early today.
